DETAILED ACTION

Response to Amendment

Reissue Applications

Claims 2 and 11 are rejected as attempting to improperly broaden the scope of the claimed device by recapturing previously surrendered subject matter.

While the parent application (08/928,829) was issued after a first Office Action, and normally such issues are not guilty of recapture, in the instant case there exists a parent application (08/641,505) with a prosecution history, which lends itself to the recapture of surrendered subject matter.

In the parent '505 the applicant argues 6 reasons as to why the claims are patentable over the prior art (response in '505 application, filed July 17, 1997, paper number 6, pages 7-9); 5 of which appear in the claimed subject matter. Therefore, in order for these claims to have been patented, the applicant has surrendered claims that lack at least one of the above 5 limitations.

Furthermore, in the '829 application there is a single claim that is identical to claim 1 of the '505 application but adds the limitation of (f). Clearly the applicant employs the limitation(s) of (f) to overcome a possible double patenting problem and therein surrenders claims not containing (f).

As a result, in order to overcome the recapture issue, the reissue claims must contain at least one of the limitations as argued for patentability in the '505 application or contain limitations identical in scope to (f) of the '829 application.

In response to applicant's arguments is the following:

35 USC 121 states -

An application for patent for an invention disclosed in the manner provided by the first paragraph of section 112 of this title in an application previously filed in the United States, or as provided by section 363 of this title, which is filed by an inventor or inventors named in the previously filed application **shall have the same effect, as to such invention, as though filed on the date of the prior application**, if filed before the patenting or abandonment of or termination of proceedings on the first application or on an application similarly entitled to the benefit of the filing date of the first application and if it contains or is amended to contain a specific reference to the earlier filed application.

Applicant's arguments filed February 28, 2003 have been fully considered but they are not persuasive.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
